

Videoconference Application

The videoconference application has three basic operations.

Videoconference Tool

What you want to do?

Create session

Access session

Search session

Create Videoconference Session

This operation creates a videoconference session; topic and description are necessary data to identify a session.

[Back to main menu](#)

Create new session

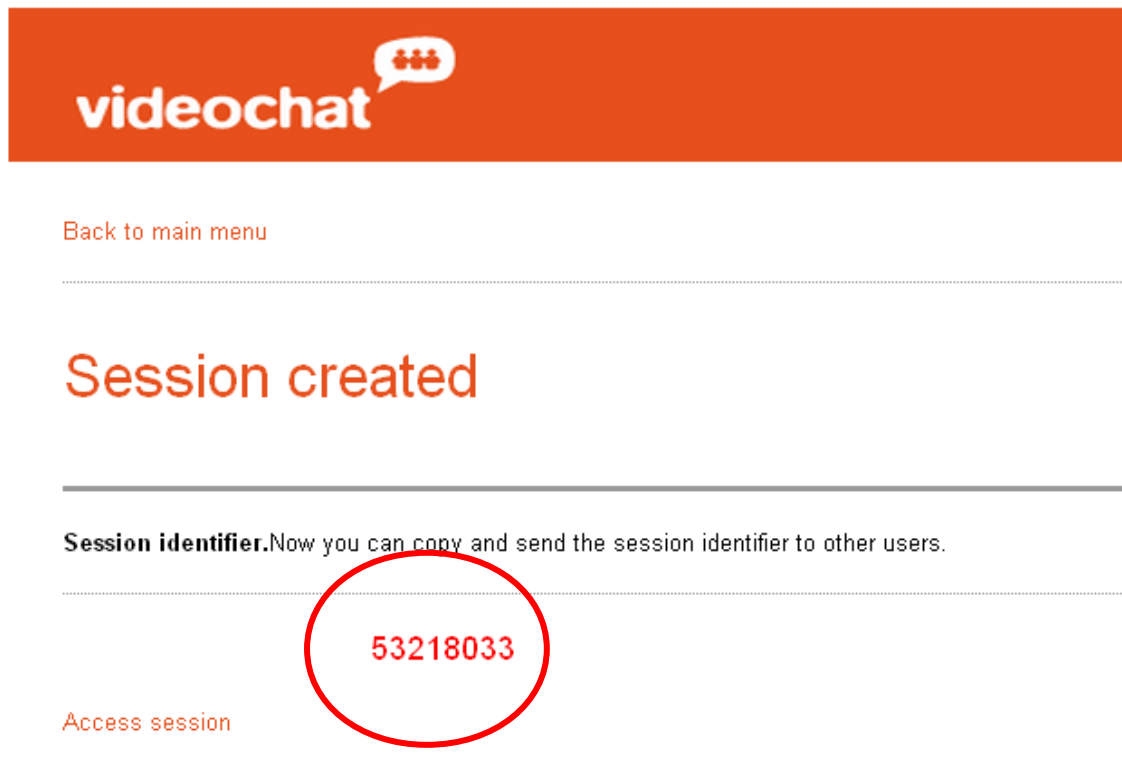

Session information. To create a new session, first fill this form, and then press "Create session" button.

Topic

Description

Create session

When you press the “Create session” button, the code to access this session appears in the screen:

Share this code with other users you wish to meet in this videoconference session. A maximum of 6 users can access one session at a time.

Access Videoconference Session

The link for accessing a session is available from the same screen where you get your videoconference session identifier. You can also find the Access session button in the main menu.

[Back to main menu](#)

Access session

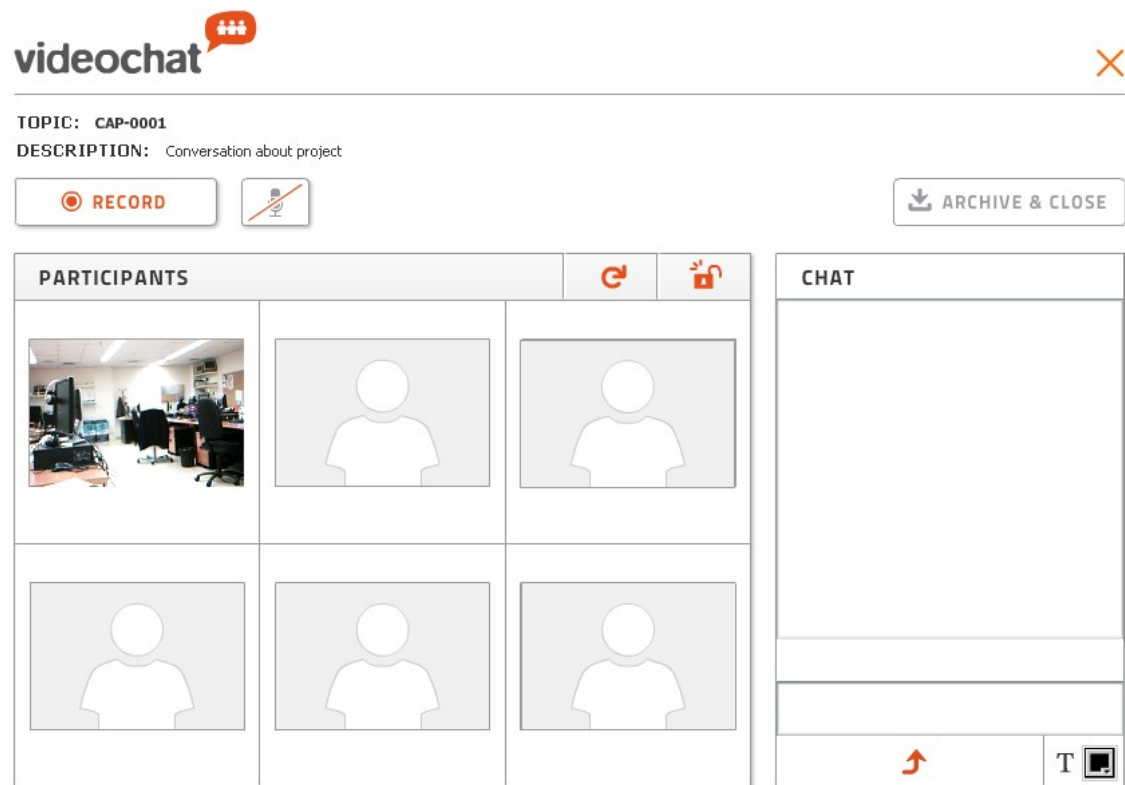

Enter session. Write a identifier session, and then press "Enter" button.

Session identifier

[Enter](#)

Input the session identifier number into the field and click on the Enter button. This will take you to the videoconference session screen-. Press the button "Allow" first, and then the button "Activate Camera" and the session will start.

Videoconference Recorder

The elements in this screen are:

The "Record" button  → Record the videoconference session. If you are not happy with a recording you can press this button to start all over again and record over a previous recording.

The "Archive & close" button  → If you are happy with the recorded videoconference session, press this button, and the recording will be archived in the system and available to your teacher and the videoconference participants.

The refresh button  → press this button if a participant does not appear in the screen.

The button  → this button closes the screen videoconference. It is important to press this button whenever you want to exit the session.

The lock button  → press this button if you want to lock/unlock access to this videoconference for other participants.

The microphone button  → press this button to mitigate unwanted background sound.

CHAT → this display allows chat with other participants.

 → to send your message to the chat window press the enter key.

The button  → changes the font colour of your text in the chat window.

Search Videoconference

The search operation manages the videoconference recordings stored in the system. You can filter the search, by different parameters: topic, participants and date.

videochat

[Back to main menu](#)

Player

Select a session to play. Use the following search options to find a session to play.

Topic

Participants

From (dd/mm/yyyy) To (dd/mm/yyyy)
 /

Results. Select the session you are interested to play.

Topic	Participants▲	From (date)	To (date)	Length	View
DIMECRES-0001	Teacher Teacher	28/09/2011 06:27:23	28/09/2011 06:28:01	00:0:38	View
DIMECRES-0002	Teacher Teacher	28/09/2011 07:01:09	28/09/2011 07:02:17	00:1:8	View
DIMECRES-0003	Teacher Teacher	28/09/2011 07:07:05	28/09/2011 07:11:43	00:4:38	View

When you get the list, select the videoconference to see by clicking on “View” link.

Player Videoconference

The screenshot shows the 'videochat' interface. At the top left, the date is 28/09/2011 and the time is 06:27:23 - 06:28:01. The topic is DIMECRES-0001 and the description is DIMECRES-0001. Below this is a play button, a timer showing 00:00, and a volume control bar. The main area is divided into two sections: 'PARTICIPANTS' and 'CHAT'. The 'PARTICIPANTS' section shows a grid of video feeds. The first feed shows a man with glasses, labeled 'Teacher Teacher'. Below each feed are 'SOLO' and 'MUTE' buttons. The 'CHAT' section shows a list of messages: '06:27:23 - Teacher Teacher: S'HA INICIAT L'ENREGISTRAMENT! (ON)', '06:27:25 - Teacher Teacher: hola', '06:27:35 - Teacher Teacher: estem fent gravacio de proves', and '06:28:01 - Teacher Teacher: S'HA ACABAT L'ENREGISTRAMENT. TORNA A CONNECTAR O SURTI (OFF)'. A printer icon is visible next to the chat header.

The elements in this screen are:

Play button  → to play the videoconference.

Volume bar  → turn the volume up/down.

Scrubber bar  →
Move the bar along the playback line to indicate where you want the video to begin.

“SOLO” button  → turn off the audios of the other participants except for this video.

“MUTE” button  → turn off the audio of this video.

Printer button  → prints the chat script of this videoconference session.
